Profile

I am a self motivated growing software developer open to learning new technologies

Education

08/2017 – 07/2022 **Bs.c Computer Science**, *Babcock University Ilishan-Remo*
Ilishan-Remo, Nigeria

Projects

- 02/2022 – 03/2022 **YoCoin**, *javascript, NodeJs, React, Mongodb*
YoCoin is a web application built as my final year project
- I developed the blockchain using Javascript and implemented several algorithms (POW, consensus, etc.)
 - I created a distributed network and an API using Nodejs to make calls to the blockchain
 - I created a user interface with react to consume the API
 - I implemented a block explorer functionality, and a detailed status report on each block chain transaction.
- 12/2021 – 12/2021 **Bootcamp-api**, *Node js, Express, Mongodb*
An Api for programming bootcamps
- Built an Api that allows user register and login and select a bootcamp to register with
 - Implemented the feature to allow each bootcamp upload resources (videos, books, pictures) for specific courses the offer.
 - Created an interaction section between each student and a course tutor
 - Allowed user rate bootcamp and drop a review
 - Allowed Admin CRUD functionalities on Bootcamp, courses and users.
- 06/2021 – 08/2021 **Competency Manager**, *C# Asp.Net Core Api, Asp.Net MVC, Mssql*
A staff appraisal software
- Built an api that allows user login and get a predefined list of competency they are to appraise themselves on
 - Allows each user appraise him/herself as well as his/her supervisee
 - An Admin controller that allows admin perform CRUD operation on each staff and get a report of each staff appraisal in both pdf and excel format
 - Built a user interface and consumed the api
- 02/2021 – 03/2021 **E-Church library**, *C#, Asp.Net Core API, Mssql*,
A Network of churches
- Built an Api that allows users register and login , select a denomination and get access to uploads from the church
 - Implemented features that allowed each church admin upload, delete and edit; video files, audio files, books and sermon.
 - Implemented user subscription to a church

Skills

Programming Language

JavaScript, C#

Version Control

Git, Github, Bitbucket

Database

Mongo DB, MsSQL, MySQL

Web Technologies

HTML, CSS, JS, React.js, Node.js, Express.js, .Net Core, Material UI, Tailwindcss

Project Management

Jira, Asana

Professional Experience

01/2021 – 05/2021

Lagos, Nigeria

Software Engineer Intern, SAED INTEGRATED SERVICES

- Developed RESTful APIs using ASP.Net and C#
- Developed user interface using asp.net mvc and cshtml, javascript
- Consumed Api from Front End using Ajax
- Deployed web services to Azure

02/2021 – 06/2021

Lagos, Nigeria

IT Support Intern, ANOH GAS PROCESSING COMPANY

- I created an in house travel app using Microsoft PowerApps
- I created a low code inventory management app using PowerApps and Sharepoint list
- I maintained company software and installed upgrades on company computers

01/2021 – 03/2021

Lagos, Nigeria

Software Intern, Dipole Diamond

- I created RPA solutions as instructed by my supervisor using UiPath studio
